GeoRef staff currently scan over 3000 journals to locate articles of a geoscience nature. A selected list of journals are given priority. Formal geoscience articles are indexed and included in the GeoRef database with as much speed as is practical. To access the complete listing of serials covered in GeoRef in PDF format go to GeoRef Serials List.

American Journal of Science. New Haven, CT: Kline Geology Laboratory, Yale University. ISSN 0002-9599.
American Mineralogist. Washington, DC: Mineralogical Society of America. ISSN 0003-004X.
Astrobiology. Larchmont, NY: Mary Ann Liebert. ISSN 1531-1074.
Boreas. Oslo: Universitetsforlaget. ISSN 0300-9483.
The Canadian Mineralogist. Ottawa, ON: Mineralogical Association of Canada. ISSN 0008-4476.
Chemical Geology. Amsterdam: Elsevier. ISSN 0009-2541.
Climate of the Past. Katlenburg-Lindau: Copernicus. ISSN 1814-4934.
Contributions to Mineralogy and Petrology. Heidelberg-New York: Springer International. ISSN 0010-7999.
EARTH. Alexandria, VA: American Geological Institute. ISSN 1943345X.
Earth Science Reviews. Amsterdam: Elsevier. ISSN 0012-8152.
Elements. Mineralogical Society of America and Mineralogical Society of Great Britan and Ireland, etc. ISSN 18115209.
Engineering Geology. Amsterdam: Elsevier. ISSN 0013-7952.
