

## Research Tools

### Research Tools

The following are GeoRef research tools:

**GeoRef Serials List**

The Serials List contains all the serials covered in the GeoRef database.

**GeoRef Thesaurus, 11th edition, 2008**

Edited by Barbara A. Goodman. The Thesaurus is a guide to the index terms used in GeoRef.

**Guide to GeoRef Thesaurus Lists**

The hierarchical lists provide information on the classification schemes used in GeoRef's controlled vocabulary.

**Priority Journals**

The journals on this selected list are given priority and included in the GeoRef database with as much speed as is practical.

**Open-Access Journals/Series**

This list of freely available journals and series are included in GeoRef.

**Subjects Covered**

The geoscience disciplines covered by GeoRef are outlined.

**Videos and Webinars**

The following vendors provide some information on how to use the GeoRef database.

Please send comments or requests for information to **GeoRef** at [ml@americangeosciences.org](mailto:ml@americangeosciences.org)
