The GeoRef Preview Database is updated weekly!
165,947 references to recent publications were loaded in our most recent update.

**Geoscience Theses and Dissertations in GeoRef**
It is that time of the year when we request information on Master’s and Bachelor’s theses and Doctoral dissertations for the 2022-2023 time period. We are interested in receiving information in the geoscience disciplines including soils, hydrogeology, marine geology, and environmental geology so that references to these documents can be included in GeoRef, the primary bibliographic service for the geosciences used by thousands of researchers worldwide. Visit GeoRef database for more information.
In addition to being referenced in GeoRef, information on recent theses and dissertations is linked to AGI’s popular publication the Directory of Geoscience Department.
When submitting information directly, please include as much information as possible: title, author, date of publication, degree, total number of pages, number of references in bibliography, details on fold-out maps, illustrations, etc.
If your theses or dissertations are available via the internet, please send us information on how we might access them: through ProQuest, your online library catalog, a department web site, in an electronic repository, etc.
If they are available through an electronic repository that is not open to outside visitors, please consider sending us as much information as is possible directly.
If they are available through your catalog, please send us advice on how to locate the theses and dissertations for the relevant departments.
Send an email to ml@americangeosciences.org to submit them or if you have any questions.
Check out our newest complimentary Midwest Geological Sequestration Consortium Research Publications Database on our Online Database list. For more information visit https://carbon.americangeosciences.org/vufind/.

**GeoRef** now contains more than 4 million references to the world's geoscience literature. On July 11, 2018 GeoRef staff passed the 4 million reference mark. Since its development in the late 1960’s, the database has grown steadily – reaching its first million record in 1982. With the acceleration of scientific publishing, the last million records were added over a span of only 9 years. Visit Open-Access Journals/Series for the complete list of Open-Access Series covered in GeoRef. Recent additions this month include:

FIGEMPA. ISSN 1390-7042. eISSN 2602-8484.
Geo & Bio. (formerly Visnik Nacional'nogo naukovo-prirodnicogo muzeu). ISSN 2617-6157. eISSN 2617-6165.
Geoenvironmental Disasters. ISSN 2197-8670.
Geohazard Mechanics. eISSN 2949-741.
Youqi dizhi yu caishoulu = Petroleum Geology and Recovery Efficiency. ISSN 1009-9603.
Acta Scientiarum Polonorum, Architectura. ISSN 1644-0633. eISSN 2544-1760.
Advances in Climate Change Research. ISSN 1674-9278. eISSN 2524-1761.
Biotechnics. eISSN 2949-9291.
Carnets Natures. eISSN 2427-6111.
Chigaku Zasshi = Journal of Geography. ISSN 0022-135X. eISSN 1884-0884.
CT Lilun yu yingyong yanjiu = Computerized Tomography and Applications. ISSN 1004-4140.
Magallat gami'at Dimasq li-l-ulum al-asasiyyay = Damascus Univveristy Journal for the Basic Sciences. ISSN 1726-5487. eISSN 2789-6366.
Reviжа za geografijo. ISSN 1854-665X. eISSN 2385-815X.
Shuitu baochi tongbao = Bulletin of Soil and Water Conservation. ISSN 1000-288X.
Transportnoe, gornoe i stroitel'noe masinostroenie: nauka i proizvodstvo = Transport, Mining and Construction Engineering: Science and Production. ISSN 2658-3305.
You-qi chuyun = Oil & Gas Storage and Transportation. ISSN 1000-8241.
Bulletin - Arkansas, Geological Commission. ISSN 0097-529X.
Guidebook - Arkansas Geological Commission.
Miscellaneous Publication - Arkansas Geological Commission. ISSN 0888-6210.
Water Resources Circular - Arkansas Geological Commission. ISSN 0571-0278.
Water Resources Summary - Arkansas Geological Commission. ISSN 0518-6374.
