## AGI Releases The Geotimes Collection: 60 Years of Geoscience

FOR IMMEDIATE RELEASE

Contact: John P. Rasanen ([jr@americangeosciences.org](mailto:jr@americangeosciences.org))

November 28, 2017

ALEXANDRIA, Va. — The American Geosciences Institute (AGI) is pleased to announce the release of "The Geotimes Collection: 60 Years of Geoscience." Now you can have over 60 years' worth of the geosciences at your fingertips with this digital collection containing every issue of *Geotimes* since its debut in 1956 all the way through the 2017 issues of *EARTH*.

For decades, *Geotimes*, which became *EARTH* in September 2008, has been the magazine of record for the geoscience community, informing and educating about recent discoveries, trends and events affecting our planet. This collection provides a fascinating window into the development of the geosciences from the articles and commentaries to the classic cartoons and ads that reflect a different time. You also get a glimpse into AGI's early history and the geoscience profession's growth into what it is today.

Over 60 years of issues are provided as fully searchable PDF files on a 16G USB flash drive, emblazoned with the AGI logo. A standard license agreement goes into effect with purchase.

"The Geotimes Collection: 60 Years of Geoscience" is available from AGI for \$99.00 plus shipping and handling at <https://store.americangeosciences.org/geotimes-earth-collection-1956-201...>. Check out this and all our other publications at <https://store.americangeosciences.org>.

### About AGI

The American Geosciences Institute (AGI) is a nonprofit federation of 52 scientific and professional associations that represents more than 260,000 geoscientists. Founded in 1948, AGI provides information services to geoscientists, serves as a voice of shared interests in the profession, plays a major role in strengthening geoscience education, and strives to increase public awareness of the vital role the geosciences play in society's use of resources, resiliency to natural hazards, and interaction with the environment.

AGI is a not-for-profit 501(c)(3) organization dedicated to serving the geoscience community and addressing the needs of society. AGI headquarters are in Alexandria, Virginia.

*The American Geosciences Institute represents and serves the geoscience community by providing collaborative leadership and information to connect Earth, science, and people.*
