## Watch a New Webcast on Earth Science Week 2014

Watch a New Webcast on Earth Science Week 2014 FOR IMMEDIATE RELEASE Geoff Camphire (gac@americangeosciences.org) 9/30/2014

Alexandria, VA - Go online today to view a new webcast detailing resources, events, and opportunities available through Earth Science Week, the annual worldwide celebration of the geosciences! Find the "Get Involved: Earth Science Week 2014" webcast online now for viewing at your convenience.

This free webcast, narrated by AGI's Katelyn Murtha, provides an overview of learning activities, instructional materials, career resources, upcoming events, networking opportunities, contests, videos, and other programs available through Earth Science Week. The tutorial provides a tour of online links and resources for more information.

The roughly 7-minute webcast focuses on Earth Science Week 2014 (October 12-18), which celebrates the theme "Earth's Connected Systems." To view the webcast, visit http://www.earthsciweek.org/webcasts. In addition, see webcasts describing the Earth Science Week contests, special days during the week, and AGI's geoscience teacher award competition.

###

Reaching over 50 million people annually, Earth Science Week has been led by AGI in cooperation with its sponsors and the geoscience community since 1998. Earth Science Week 2014 will be celebrated October 12-18. To learn more, please visithttp://www.earthsciweek.org/. To order your Toolkits, please visit http://www.earthsciweek.org/ materials/index.html. You may also call AGI Publications to place your order at 703-379-2480.

The American Geosciences Institute is the global leader in geoscience information. AGI is a nonprofit federation of 49 geoscientific and professional associations that represents more than 250,000 geologists, geophysicists and other earth scientists. Founded in 1948, AGI provides information services to geoscientists, serves as a voice of shared interests in the profession, plays a major role in strengthening geoscience education, and strives to increase public awareness of the vital role the geosciences play in society's use of resources, resiliency to natural hazards, and interaction with the environment.
