Berry H. (Nick) Tew, Jr.

State Geologist of Alabama and Oil and Gas Supervisor, Geological Survey of Alabama and State Oil and Gas Board of Alabama Moderator, Session 4: Drivers of and barriers to natural gas development in North America

Dr. Nick Tew has served as Alabama's State Geologist and Oil and Gas Supervisor since 2002. In these capacities, he directs the Geological Survey of Alabama and the staff of the State Oil and Gas Board of Alabama. Nick is President of the American Geosciences Institute and he previously served as President of the Association of American State Geologists, Vice-Chairman of the Interstate Oil and Gas Compact Commission, and Chairman of the U.S. Department of the Interior Outer Continental Shelf Policy Committee. He also serves on the National Petroleum Council and is a Fellow in the Geological Society of America.
