

2011-2012 AGI Fisher Fellow Aisha Morris

The 2011-2012 William L. Fisher Congressional Geoscience Fellow is Aisha Morris who worked in the office of Congressman Rush Holt of New Jersey. Aisha received her Bachelor's of Science in Geology from Duke University and her Masters in Marine Geology and Geophysics from the University of Hawaii. She completed her Doctoral degree in Planetary Geology at the University of Hawaii under the tutelage of Peter Mouginis-Mark. The focus of her doctoral degree was "Topographic and geomorphologic studies of volcanic and impact-related landforms on Earth and Mars". She recently completed a post-doctoral fellowship with the Alliance for Graduate Education and the Professoriate (AGEP) at Syracuse University. Aisha served as an instructor for undergraduate geology courses and for the Research Scholars High School STEP program. Dedicated to science education, Aisha also worked with Girls Eyes Only (GEO), a science enrichment program and Girls Get It!, a science camp; both for middle school girls in the Syracuse area.
