

EarthComm Earth's Fluid Spheres: Oceans and Your Community

Students are challenged to prepare a report to help community leaders to decide whether to host a statewide conference on preparing for El Nino events.

Students Will...

- Understand how and why oceans are part of Earth systems.
 - Participate in scientific inquiry and construct logical conclusions based on evidence.
 - Recognize the global impacts of an El Nino event.
 - Appreciate the value of Earth science information in improving the quality of lives, globally and within the community.
-
