- Very Important
- Important
- Somewhat Important
- Not Important
- Not Applicable / don't know

Geography Competencies 1

Geography Competencies 2
The last two graphs above display a sample of 12 technical competencies of geographers. The Geo Career MaPS survey asked faculty, students and non-academic professionals about the preparation and importance of 20 different geographic competencies, which were taken from the Association of American Geographer's Enhancing Departments and Graduate Education (EDGE) study.
