Regeneron International Science & Engineering Fair

The Regeneron International Science & Engineering Fair (ISEF), formerly known as the Intel ISEF, is the Olympics, the World Cup, and the World Series of science competitions. Held annually in May, the ISEF brings together approximately 1,800 students from more than 75 countries, regions, and territories to compete for scholarships, tuition grants, internships, scientific field trips and the grand prize: a trip to attend the Nobel Prize Ceremonies in Stockholm, Sweden. In support of this program, AGI has sponsored awards for entries related to the geosciences. The winners of those prizes are listed below. Learn more about how to participate in the Regeneron ISEF with your own science project.
