Critical Issues Basics & Primers

Climate

climate

drought

flood

water availability

water quality

weather hazards

wildfire

Energy

coal

geothermal

hydraulic fracturing

hydropower

nuclear energy

oil and gas

renewable energy

solar

wind power

Hazards

drought
earthquake
flood
landslide
sinkhole
tsunami
volcano
waste management
weather hazards
wildfire

Mineral Resources

critical minerals
industrial minerals
metal
mining

Water

drought
flood
groundwater
water availability
water quality
wildfire
