

Federal Register - April 2015

DOI - The U.S. Geological Survey (USGS) announced a revision to their information collection for the National Land Remote Sensing Education, Outreach and Research Activity which receives, processes and archives remotely sensed data. Submit comments to USGS by June 1, 2015. [Wednesday, April 1, 2015 (Volume 80, Issue 62)]

NSF - The National Science Foundation (NSF) announced intention to develop a new Research Performance Progress Report. Comments about this report should be submitted by June 5, 2015. [Monday, April 6, 2015 (Volume 80, Issue 65)]

DOI - The Bureau of Ocean Energy Management (BOEM) announced their Record of Decision for Chukchi Sea Outer Continental Shelf Oil and Gas Lease Sale 193 originally held in 2008. [Monday, April 6, 2015 (Volume 80, Issue 65)]

DOI - The U.S. Geological Survey (USGS) is holding a meeting of their advisory committee on climate change and natural resource science on Tuesday, April 28, 2015. [Monday, April 6, 2015 (Volume 80, Number 65)]

DOI - The National Parks Service (NPS) is starting a new information collection for their iNaturalist web-based and mobile applications which digitally record natural history observations. Comments on this activity must be submitted by June 8, 2015. [Monday, April 6, 2015 (Volume 80, Issue 65)]

DOI - The U.S. Geological Survey (USGS) announced public meetings in preparation for their upcoming release of the 3D Elevation Program (3DEP), which will provide high-quality topographic data for three-dimensional representations of natural and constructed features. Virtual meeting webinars will be held April 24, 2015 and July 23 and 28, 2015. Public workshops will be held throughout the U.S. between May 4 and June 26, 2015. [Wednesday, April 15, 2015 (Volume 80, Issue 72)]

DOI - The Bureau of Safety and Environmental Enforcement (BSEE) proposed new rules for oil, gas, and sulphur outer continental shelf operations, which would incorporate industry standards while revising existing regulations with regard to blowout preventers, provide reform for well design, control, casing, cementing, subsea containment, and real-time monitoring with the goal of consolidating equipment and operational requirements, as well as processes for completions, workovers, and decommissioning. Comments on the regulations must be submitted by June 16, 2015. [Friday, April 17, 2015 (Volume 80, Issue 74)]

DOI - The U.S. Geological Survey (USGS) gave notice of their intent collect information on earthquakes and their impacts for a revision of the 'Did You Feel It? Earthquake Questionnaire.' Comments on this information collection and revision must be submitted on or before May 18, 2015. [Friday, April 17, 2015 (Volume 80, Issue 74)]

DOI - The Bureau of Land Management (BLM) gave advanced notice for a new proposed rule for onshore oil and gas leasing to update royalty rates, annual rental payments, minimum acceptable bids, bonding requirements, and civil penalty assessments. Comments and suggestions regarding this rule may be submitted until June 5, 2015. [Tuesday, April 21, 2015 (Volume 80, Issue 76)]

DOI - The Bureau of Ocean Energy Management (BOEM) announced their intended collection of information on prospecting for minerals other than oil, gas, and sulfur on the outer continental shelf, as well as authorizing of noncommercial geological and geophysical activities on the outer continental shelf. Comments on this information collection may be submitted until May 26, 2015 [Friday, April 24, 2015 (Volume 80, Issue 79)]

DOI - The Bureau of Ocean Energy Management (BOEM) announced their intent to create an Environmental Impact Statement for the 2017-2022 Gulf of Mexico Multisale. [Wednesday, April 29, 2015 (Volume 80, Issue 82)]

DOE - The Department of Energy (DOE) announced an open meeting of the Commission to Review the Effectiveness of National Energy Laboratories occurring on May 22, 2015 between 9am and 2pm EDT. [Thursday, April 30, 2015 (Volume 80, Issue 83)]
