

AESE Annual Meeting in Niagara Falls, NY - Sep 26-29, 2018

Mark your calendars! The 52nd annual meeting of the Association of Earth Science Editors will take place in Niagara Falls, New York, September 26 to 29, 2018. We hope you'll join us for what promises to be a great meeting, in a spectacular setting.

AESE meetings are a wonderful way to learn about earth science editing, publishing and communication. Our meetings are generally small in size and provide an unparalleled opportunity to network with other editors, publishers and educators working in the earth sciences.

This year's Technical Program Chair is Phil Farquharson (San Diego Miramar College), and Host Chair is Marg Rutka (Ontario Geological Survey).

Niagara Falls has been a prime tourist destination since the mid-19th century. People come from around the world to see just the falls, themselves. But there is so much more to explore on both the American and Canadian sides of the falls, from world class wineries, Niagara Falls State Park (providing close access to the American and Bridal Veil falls), Niagara Gorge hiking trails, and art galleries to the Schoellkopf Power Plant museum (providing easy access to the bottom of the gorge), Niagara rapids jet boat tours, Old Fort Niagara, Niagara-on-the-Lake and more....so remember to bring your passports if you wish to take in all that the area has to offer!

The meeting is open to anyone interested in earth science editing, publishing and outreach. The program is in the initial planning stage. Meeting information is now available on AESE's web page www.aese.org. A closed Facebook group has been set up to share information <https://www.facebook.com/groups/123266368358780/>. For more information, please contact host chair, Marg Rutka, marg.rutka@ontario.ca, and technical program chair, Phil Farquharson philfarq@gmail.com.
