

Geology of Iowa: The Rocks

ERN Item Type:

- Presentations

Organization:

Iowa Geological Survey (IGS)

Website Link:

https://www.americangeosciences.org/sites/default/files/IGS_TheRocks.pptx

Description:

This filmstrip and accompanying text were discovered in the archives of the Iowa Geological Survey in early 2008. A suitable filmstrip projector was not available. The filmstrip itself, believed to date from circa-1971, was deteriorated (see below). The filmstrip was scanned and color restoration was accomplished. This PowerPoint presentation recreates the educational intent of the original filmstrip. For a higher resolution file, please contact the Iowa Geological Survey.

Grade Level:

Earth Science Big Ideas:

- Big Idea 2

Is this tagged to NGSS by the organization?:

No

NGSS Crosscutting Concepts:

- Patterns
- Scale, proportion, and quantity

NGSS Disciplinary Core Ideas:

- LS4.A

NGSS Science and Engineering Practices:

- Analyzing and interpreting data
- Constructing explanations (for science) and designing solutions (for engineering)

NGSS Performance Expectations:

- 3-LS4-1
- MS-LS4-1
- MS-LS4-2
