

College Graduate Workers in the Mining, Petroleum, and Research Industries

College graduate workers with their *highest* degree in the geosciences comprise 23% of the mining industry, 11% of the petroleum industry, and 3% of the basic research industry. If a worker has multiple degrees, only their highest degree (bachelor's, master's, doctorate, or professional) is represented in these charts.

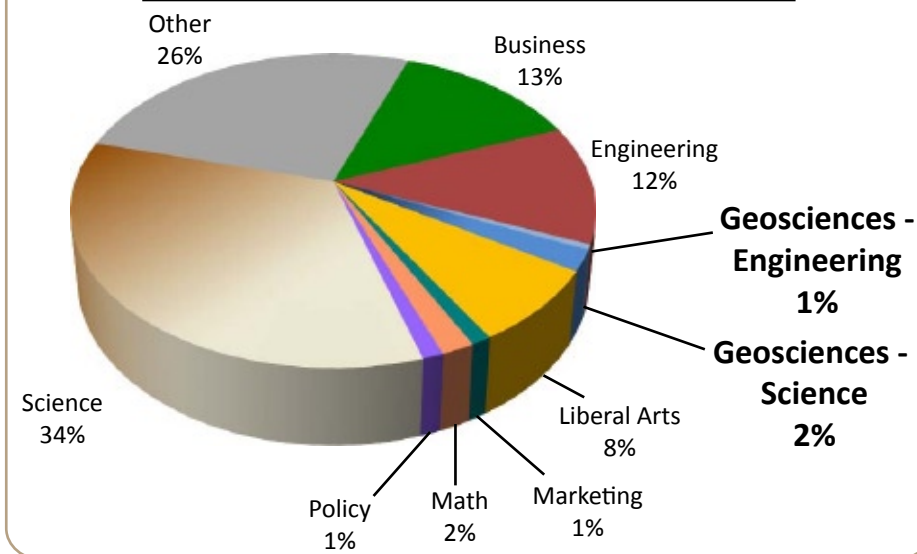

Mining Workers: Field of Highest Degree

Petroleum Workers: Field of Highest Degree

Basic Researchers: Field of Highest Degree
