

Two Ways About It

Assessment Activity Sheet

While you were on your E-quest, you learned many things along the way. Think about the following questions and write an answer to each:

1. How are number lines used for determining distances on maps?
2. What is the difference between distance and direction on a map?
3. Think about how you used negative numbers in this lesson. How do negative and positive numbers correspond to direction on a map?
4. What are some of the good things about building a dam? What are some of the bad things?
