# Rainy Day

Rain Gauge

To make a rain gauge:

1. Cut out the template of the metric ruler (below right).

2. Place the ruler along the base of a plastic jar.

3. From the bottom of the jar, mark off centimeters.

4. Number your centimeters (see example below).

5. Use the Metric Ruler template to graph the amount of rain.

Jar

Metric Ruler

10	10
9	9
8	8
7	7
6	6
5	5
4	4
3	3
2	2
1 cm	1 cm
