AGI Produces “This is AGI” Video

Alexandria, VA – The American Geological Institute (AGI) has released a new video entitled “This is AGI” available on the AGI website.

This eight minute video provides information on AGI’s mission, its history, and details the many services AGI provides to its Member Societies and the general public. “An organization as diverse as AGI with a mission reaching out to many constituencies is hard to describe in a few words. This video provides a genuine and full view of the institute,” says Richard Powers, AGI President.

View the video to learn about AGI’s role in building a strong geoscience workforce. See our involvement in ensuring America’s student s receive a quality earth science education in both K-12 and university levels. Learn about the services we provide to the profession such as GeoRef, image and video archives. Plus, watch to see how AGI promotes the geosciences to policymakers through our strong and active Government Affairs Program.

To view “This is AGI” please visit <http://www.agiweb.org/about.html>.

The American Geological Institute is a nonprofit federation of 46 geoscientific and professional associations that represents more than 120,000 geologists, geophysicists and other earth scientists. Founded in 1948, AGI provides information services to geoscientists, serves as a voice of shared interests in the profession, plays a major role in strengthening geoscience education, and strives to increase public awareness of the vital role the geosciences play in society's use of resources, resiliency to natural hazards, and interaction with the environment.
