## EARTH Magazine Now Provides Digital Access for Institutional Subscribers

Alexandria, VA — The American Geosciences Institute (AGI) is pleased to announce that, effective immediately, institutional subscribers to EARTH Magazine can now register for IP-based access for their users to view the full content of EARTH Magazine digitally. This option allows for seamless IP-based access for library users to PDF copies of all issues of EARTH. Print copies of the magazine will continue to be provided to all institutional subscribers unless they specify that they no longer wish to receive print copies. Perpetual access all subscribed issues of EARTH is provided with this feature.

To take advantage of this feature, please either complete the online form available at <http://www.earthmagazine.org/content/earth-ip-access-request-form>, or download and complete the EARTH IP Access request form and mail, FAX, or email it per the instructions provided. The PDF form is available at <http://www.agiweb.org/store/library/iprequestform.pdf>.

Once subscription status is verified, IP-access will be enabled within 5 business days.

###

The American Geosciences Institute is a nonprofit federation of 50 geoscientific and professional associations that represents more than 250,000 geologists, geophysicists and other earth scientists. Founded in 1948, AGI provides information services to geoscientists, serves as a voice of shared interests in the profession, plays a major role in strengthening geoscience education, and strives to increase public awareness of the vital role the geosciences play in society's use of resources, resiliency to natural hazards, and interaction with the environment.
