## AGI Offers Publication, Mapping America

Alexandria, VA – The American Geological Institute (AGI) is pleased to offer the book, *Mapping America: Exploring the Continent* (ISBN: 978-1-907317-08-8) as part of its extensive publications catalog.

*Mapping America* (© 2010 Black Dog Publishing, printed in Europe) is a beautifully illustrated survey of America, by Frank Jacobs and Fritz Kessler. This 240 page, full color, hardcover publication features an array of maps that document America's cartographic development, from early engravings, to the latest in satellite technology.

*Mapping America* covers four centuries of maps that depict the changing face of North America. It charts the continent through numerous landmark events and uprisings, including the Civil War, the Civil Rights Movement, and more recent concerns, such as the environment and terrorism.

To learn more about *Mapping America: Exploring the Continent* and to order this impressive publication, please visit <http://www.agiweb.org/pubs/pubdetail.html?item=300105> . To view AGI's complete publications catalog of resource and general interest books, DVDs, gift items and services, go to <http://www.agiweb.org/pubs/>.

The American Geological Institute is a nonprofit federation of 49 geoscientific and professional associations that represents more than 120,000 geologists, geophysicists and other earth scientists. Founded in 1948, AGI provides information services to geoscientists, serves as a voice of shared interests in the profession, plays a major role in strengthening geoscience education, and strives to increase public awareness of the vital role the geosciences play in society's use of resources, resiliency to natural hazards, and interaction with the environment.
