AGI Accepting Applications for 2009 Award for Excellence in Earth Science Teaching

Alexandria, VA – The American Geological Institute (AGI) and the AGI Foundation are accepting applications for the Edward C. Roy, Jr. Award for Excellence in Earth Science Teaching. Given annually, this award recognizes one classroom teacher from kindergarten to eighth grade for his or her leadership and innovation in earth science education.

The winner will receive a \$2,500 prize and an additional grant of \$1,000 to attend the 2009 Geological Society of America annual meeting in Portland, Oregon. To be eligible for this year's competition, applications must be postmarked by May 31, 2009.

This award is named in honor of Dr. Edward C. Roy, Jr., who was an energetic and dedicated supporter of earth science education. He served as Past President of AGI, chaired the AGI Education Advisory Committee, and received both the Ian Campbell Medal and the Heroy Distinguished Service award. In addition, he served as the Gertrude and Walter Pyron Distinguished Professor of Geology at Trinity University, as Dean of the Division of Sciences, Mathematics, and Engineering, and as Vice President for Academic Affairs. Roy was also appointed Chair of the Texas Earth Science Task Force by the Commissioner of the Texas Education Agency.

To learn more about competition requirements, application procedures, and deadlines, visit <http://www.agiweb.org/education/awards/ed-roy/>.

The American Geological Institute is a nonprofit federation of 45 geoscientific and professional associations that represents more than 120,000 geologists, geophysicists and other earth scientists. Founded in 1948, AGI provides information services to geoscientists, serves as a voice of shared interests in the profession, plays a major role in strengthening geoscience education, and strives to increase public awareness of the vital role the geosciences play in society's use of resources, resiliency to natural hazards, and interaction with the environment.
